

Vista Notes Subscriber Testimonials

Thank you for your interest in becoming a *Vista Notes* subscriber! We understand that there's no better measure of a product's quality and value than a firsthand, customer testimonial. So, rather than go on and on about why WE believe DME providers can't afford to be without *Vista Notes*, we'd rather let our subscribers tell you.

Subscriber Testimonials:

"National Home Respiratory Services uses *Vista Notes* as an invaluable tool to help us navigate through Medicare and industry changes as they occur. Trying to keep up with all the new regulations and understand how they may affect our company as well as determining what actions are necessary can be very confusing and time consuming. We rely on our *Vista Notes* to help us focus on what's truly important and what actions we need to take. In a nutshell, it makes us feel "connected" to a knowledgeable source of information and we appreciate the clear, concise way the publication is written." – **Paula Levin, National Home Respiratory Services**

"Upon hearing Andrea Stark speak the first time at a NCAMES conference, I realized just how much she could help my employees and me better understand Medicare policy and procedures. Her *Vista Notes* are like having her explain these things to us on a personal level. The articles are concise and clear. Topics range from Medicare policy to politics, including current legislation and proposed legislation that affects our industry. *Vista Notes* are a valuable tool for my company and should be an important part of every DME provider's library." – **Andy Ingram, Home Assist Medical Equipment, Inc.**

"I have been the Billing Manager at my company for over 11 years and *Vista Notes* is that one thing you have always wanted to make your job a little easier. Andrea Stark does a great job compiling and condensing the information into what we need to stay on top of Medicare changes and I think it is a great tool to have!" – **Stephanie Hess, Community Home Care Services**

"We have benefitted so much from *Vista Notes*. It has allowed me to have more freedom to do other things with my staff, than to have to read through and pull out information from multiple sources and then convert it into an understandable format... I just wait for *Vista Notes* and each of my staff is given a copy... We also reference them [*Vista Notes*] on a daily or weekly basis for the upcoming changes that are taking place. It is nice to have a source that we can trust to take this burden off of us. We really appreciate all that you do for the DME community." – **Sylvia King, Thrift Home Care**

"I use it [*Vista Notes*] as a tool to teach the staff about the many changes in our world. It is put together in a simple easy to read manner that anyone in our business can understand... I use it to double check my understanding and to make sure everyone else understands as well. Thank you for this useful tool." – **Angella Mattheis, Agnesian Health Shoppe & Home Oxygen**

"I have found *Vista Notes* to be very beneficial for our day to day operations. The *Notes* put the regulations in an easy to read format and are explained in a way that even a novice could understand. I have used these *Notes* for many years and will continue to do so. They are a major part of our billing department." – **Donna Richardson, AnMed Health**
